

# **Sing ORFC**

*by Robin Grey and Roo Bramley*

*Sung by Darla Eno*

Our Ruth and Colin had an idea (sing ovy, sing ivy)  
To gather good folk from far and from near (sing holly go whistling ivy)

A place for enlightened ideas to grow  
And host this whilst they schemed up the road

A few years did pass, the gathering grown  
At Oxford Town Hall we found a new home

The answers here, new wisdom and old  
A future for farming, our visions are bold

Good food produced with healthy soil  
Fair wages paid to all those who toil

A seasonal harvest, the fat of the land  
Godspeed to the plough and the watchful hand

In partnership with worms and with bees  
Flourishing herds in pastures of green

The ministers and the media come  
To find out about the things we have done

So here's to the future in uncertain times  
Let's nurture the land with our children in mind
